

January 30, 1930.

Mr. Marcellus Johnson, President,
Glendale Irrigation Company,
Glendale, Utah.

Dear Sir:

RE: LONG VALLEY DISTRIBUTION.

I have your letter of January 26 with reference to difficulties which you are having in collecting from your stockholders the necessary assessments for maintenance and repairs. While I wish to be helpful I am not a lawyer and am not well versed in corporation law.

I do not know how much trouble it would be to let me have a copy of your Articles of Incorporation and By-laws. It would be difficult for any one to advise without these because they control so far as they are specific and so far as they are not specific we would have to look up the general law.

In general terms I feel sure that there must be a legal obligation on the stockholders to take care of the maintenance and repairs of their property but until I have more detailed information I cannot quote the exact part of the law which you could evoke.

Yours very truly,

State Engineer.
